TUAN T. LAM
PRIMARY EXAMINER

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

Claim 5:

Lines 3 and 9, "first" has been changed to --fifth--.

The changes have been made in order to be consistent with the recitation of "said fifth transfer gate" in line 11.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest a second master latch circuit, connected to said scan0in data input terminal and said output terminal, for receiving scan-in data at said scan-in data input terminal in synchronization with first and second scan clock signals, said slave latch comprising a control circuit, connected between an output of said first master latch circuit and said output terminal, for controlling transfer of said usual mode data to said output terminal in synchronization with a second clock signal independent of said first clock signal as called for in claim 1 and 8.

Therefore, claims 1-8 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
